

# Richardson Trend – Radon Survey

Hatchet JV – Anthem 50% / Denison 50%

- Radon in lake water survey completed summer 2013 at Richardson Lake NW target
- Anomalous radon values identified at mineralized hole RL-13-16 (0.45%  $U_3O_8$  / 2.3 m)
- Stronger radon anomaly discovered to south in untested portion of trend (no previous drilling along 400 m strike length)
- To be drilled in Jan 2014
